

# OPPORTUNITIES FOR STUDENTS IN DENMARK

During the last years, Denmark has been facing a severe shortage of labour. Danish companies are therefore very eager to host students and will often give them challenging tasks.

At the same time, many Danish companies are starting to recruit staff from abroad. Especially the small and medium sized companies are open to take in VET-students for a longer or shorter time.

## PAST PLACEMENTS

GRAPHICAL DESIGNERS  
PEDAGOGUES  
IT AND PROGRAMMERS  
TOURIST ASSISTANCE

OFFICE CLERKS  
PHARMACISTS  
ARCHITECTS  
ENGINEERS

BAKERS  
FARMERS  
WAITERS  
COOKS

InterCollege would be happy to find partners in new companies. If you wish to host students in any field not mentioned here, please feel free to ask us about the possibilities.

## LANGUAGE COURSES

Almost everybody in Denmark speaks English fluently. Working and getting around the city is therefore easy without knowledge of any Danish. Learning about Danish language and history can nevertheless be a big advantage for the students. Therefore, InterCollege is offering to organise Danish courses. Many of the students we are hosting are also in need of freshening up their English skills.

InterCollege is therefore offering to organise English courses. We are aiming, if possible, to make the language courses sector specific with a special focus on terms and phrases used in the field the students are working in.

# PRACTICAL ARRANGEMENTS

Most often students are hosted in shared rooms in shared apartments. The students will share facilities with young internationals from all over the world. The students are having self-catering and are often cooking together with their flat mates.

Transport in Danish cities are mostly by bike. Most students are renting bikes and use those to get around during their stay. InterCollege can help the students to rent a bike for cheap upon arrival.

InterCollege offers to arrange transfer from/to Aalborg Airport or Aalborg Train station upon arrival and departure. Furthermore, InterCollege offers support and mentorship for the students including a Welcome day, where the students are welcomed to Denmark and Aalborg and introduced to their upcoming placements.

## LEISURE TIME

Denmark is offering a range of different free time activities. Some students are joining a sports club during their stay and others are making a use of the many public pools.

Many students choose to use the chance to explore other cities or nature sites during the weekends. Due to the small size of Denmark any location is possible to visit on a day or weekend trip.
